

Important News for our MAPROM-Clients:

The existing collection of bags, as well as the own production of our aprons, terry towelling, clothes bags, dish cloths and caps will be replaced by identical products of the new brand TEXXILLA.

The advantage is obvious: As all textile products have to be marked by the distributor according to the Textile Labelling Law, at present a note pointing to MAPROM is printed in the above-named products. Of course, that isn't very favourable for all retailers.

To avoid, that your clients look for direct contact to us, due to this note, we have decided to produce our own products via the Berlin brand TEXXILLA. This means there will no longer be a connection to Maprom visible.

Nothing will change concerning the long-proven products, apart from a new article number and care label. The quality remains the same.

By the way, the brand TEXXILLA is exclusively marketed by MAPROM.

Following, an overview of the newly produced articles and their article numbers by TEXXILLA in comparison to the old articles and their numbers.

Cotton Bags and Pouch.
